

## All Stars' kicked the dust up

The Mainline DynoLog Dynamometers All Star Series certainly did 'Kick the Dust Up' during their 9<sup>th</sup> season. The Pit Party was opened with an awesome highlight package put together by MD Production titled just that - Kick the Dust Up. It has become a tradition to have a highlights video finish off each season and this 9<sup>th</sup> season was no different. "We are proud of our achievements and love the chance to remember just a few of them. We have continued to lift the image and professionalism of 360 Sprintcars but also managed to maintain the 'All Star family fun' image which is very important to us." Promotor Searle tells us. Below sums up very briefly what has been achieved over the 11 round (15 week) season.
