MAJOR ANNOUNCEMENT

In an ongoing commitment to continuous improvement at Fuchs South Coast Raceway, we would like to announce that the club will be upgrading the racing surface of our track.

The plan at this stage is to concrete another 100m of the track which will take us past the half track 330 ft mark. The club has raised half of the funds required to complete this project and will need your help to get us the rest of the way. We will be releasing details shortly on how you can donate by purchasing a metre of concrete to help fund this major project.

The club would like to make a very special mention to our two major sponsors Fuchs Lubricants and Rocket Industries for their fantastic and ongoing support. Without this support and that of all our other awesome Sponsors, Competitors and Spectators this would not be possible.
